

# GAR COMMERCIAL HEIFERS

The commercial females will sell in 19 groups, safe in calf to GAR Ashland, GAR Quantum, GAR Dual Threat, GAR Home Town, GAR Phoenix, GAR Kansas, GAR Transcendent and other excellent GAR sires. The females have been genomic tested using Method Genetics Choice. Because the MG database is derived from information supplied primarily by GAR seedstock and commercial herds, the MG genetic breeding values and indexes serve

as a BENCHMARK for GAR customers. Simply put, the Method Genetics evaluation benchmarks our cattle and the cattle of our customers who participate in the MG program against one another. This is an elite population of Angus cattle selected for reproductive efficiency, calving ease, docility, post weaning growth, feedlot performance and carcass value, NOT THE AVERAGE ANGUS ANIMAL. **FREE DELIVERY.**

**Commercial females sell as a group with the option to take multiple groups.**
