

League Leaders

In Popular EPDs and Performance

This catalog feature is presented as a tribute to Henry Gardiner and his habit of writing everything down (in triplicate). Henry made lists and studied them to analyze the performance of cattle at Gardiner Angus Ranch. This “good habit” began when Henry was young and continued into the years prior to his passing in 2015.

Henry also enjoyed baseball. So, in his honor we present the Top 10 sale bulls in nine categories as “League Leaders” in these very popular EPDs and performance traits. We hope you enjoy analyzing the lists and hope you learn about the cattle in the same way Henry did for so many years.
