

GAR Commercial Females

This offering of GAR-Influenced bred cows and heifers represent both volume and value. Group 1 is a group of AI bred cows. The cows and heifer are AI bred to elite GAR sires. The females sell with complete Method Genetics EPDs and Indexes. As always, the winning bidder can select the groups he or she would like, taking one group or more groups within a category. The bidder is bidding on the group.

The beef business is good and the forecast for the future is exciting. Our commercial cow-calf customers are using GAR genetics and Method test results with extraordinary success regardless of their chosen end-point. We often talk about the importance of producing "a pound of gold" rather than "a pound of lead." Our

customers agree.

We have tracked the carcass performance on our customer cattle and our own home raised steers since April 2017 using GAR USPB delivery rights. More than 18,736 head have returned \$151.28 premium/hd, totaling \$2,834,321 above the base price.

This volume offering of genetically superior commercial females is unique in the beef business and truly a buyer's opportunity.

Remember, freight is on us as we will deliver these heifers free of charge just like the registered cattle.

Group 42 • GAR Bred Commercial Heifers Load Lots

Forty commercial heifers in Group 1 will sell AI bred 5/3/23 and safe in calf to GAR Transcendent. Six heifers are safe to sons of GAR Home Town. The heifers have been genomic tested using Method Genetics Choice. Because the MG database is derived from information supplied primarily by GAR seedstock and commercial herds, the MG genetic breeding values and indexes serve as a BENCHMARK for GAR customers. Simply put, the Method Genetics evaluation benchmarks our cattle and the cattle of our customers who participate in the MG program against

one another. This is an elite population of Angus cattle selected for reproductive efficiency, calving ease, docility, post weaning growth, feedlot performance and carcass value, NOT THE AVERAGE ANGUS ANIMAL.
