

GAR Commercial Females

This offering of 525 GAR-Influenced bred cows and heifers represent both volume and value. Group 1 is a group of AI bred cows. Groups 1 through 51 cows and heifers are AI bred to elite GAR sires. Groups 52 through 56 heifers are bull bred to five Home Town sons. The females sell with complete Method Genetics EPDs and Indexes. As always, the winning bidder can select the groups he or she would like, taking one group or more groups within a category. The bidder is bidding on the group.

The beef business is good and the forecast for the future is exciting. Our commercial cow-calf

customers are using GAR genetics and Method test results with extraordinary success regardless of their chosen end-point. We often talk about the importance of producing "a pound of gold" rather than "a pound of lead." Our customers agree.

This volume offering of genetically superior commercial females is unique in the beef business and truly a buyer's opportunity.

Remember, freight is on us as we will deliver these heifers free of charge just like the registered cattle.

Group 1 • GAR AI Bred Commercial Cows
