

136 COMMERCIAL SPRING PAIRS

Josh McKinney, McKinney Land & Cattle, Laverne, Okla., is offering 14 groups of spring pairs. Groups 1 through 5 calves are AI sired by GAR Beacon. Groups 6 through 14 are sired by GAR sires. Buyer is bidding on the entire group but may take multiple groups. Buyer will make settlement and deliver arrangements directly with Josh McKinney. Josh is offering a buy back on the calves and free delivery.

McKinney Land & Cattle
Josh McKinney, Laverne, OK

McKinney Land & Cattle

Josh McKinney has built an outstanding cowherd using 100% GAR genetics and applying the discipline to create value by selecting for all the traits of economic importance. The cows offered in this sale represent young, proven, productive females with the inherent genetics to perform regardless of marketing end point.

Josh McKinney (620) 539-0018

A perfect replacement for his sire, GAR Sunbeam, as an outcross with everything in order. Tremendous bull physically, with perfect feet and attitude. The top percentiles for growth, marbling and muscle are adding value to many commercial calf crops across the country.

BEST TEST ON THE MARKET FOR ANGUS-SIRED FEMALES BROUGHT TO YOU BY AGI* AND ZOETIS

73 BRED COMMERCIAL HEIFERS

Gardiner Angus Ranch is excited to deliver the latest technology in characterizing commercial Angus females using the common currency of the Angus \$Value indexes. We are selling 73 head of GeneMax® tested bred commercial heifers. Buyers are bidding on an entire group but may take multiple groups.

The GAR commercial Angus female offering is genomically tested with the GeneMax® Advantage™ test and results include \$Value indexes for \$M, \$B and \$C along with percentile ranks for key traits such as weaning weight, carcass weight, marbling and ribeye. The individual trait rankings are benchmarked against nearly 150,000 DNA-tested

commercial Angus replacement heifer candidates.

The \$Values for the GeneMax heifers are directly comparable to the Angus \$Values on all GAR registered cattle. This industry leading Angus \$Value language allows selection of commercial females with the common index language used by producers to select the bulls they purchase.

These females will make elite commercial replacements bred to high-use GAR AI sires and sons of GAR AI and ET sires. This historic market presents tremendous investment opportunities today and greater profitability in the future.
